

SB202 Testimony of Tony Herbert
Senate Business, Labor and Economic Affairs Committee
February 17, 2011

Mr. Chairman and members of the committee, my name is Tony Herbert and I am the Executive Director of the Montana Brewers Association. Our industry today is comprised of 27 microbreweries located throughout Montana from Whitefish to Wibaux in a total of 19 Montana communities.

The craft brewing industry in this nation has evolved in the past 10 to 15 years to one that is now recognized as a major player in the country's beer business. Craft breweries have grown to now represent over 1,500 small businesses in America making fine beer, with local products, local talent, and local investments. This is ever so true in Montana as your microbreweries make beer that rivals all other competitors.

Approximately half the grain used in Montana made beer is grown, and malted right here in Montana, and Montana breweries have invested on average more than \$500,000 in brewing plant alone. Brewers employ over 240 Montanans, produced revenues and pay taxes on over \$24,000,000, and produce over 80,000 barrels of beer each year, enjoyed mostly right here in Montana. The majority of this beer is sold in to consumers in taverns, restaurants, and other retail outlets.

In 2009 overall beer consumption in the country was down 2.2%, yet craft beer grew 7%. Montanans and most Americans recognize that locally brewed beer offers an important cultural addition to our communities to help make them more vibrant, supports small businesses, creates jobs, and help create new investments that support other trade businesses in our towns and cities.

Last year we surveyed our membership and asked what changes they would request of you that would make the greatest impact on their businesses, and changing the hours of retail ability was #1. One requirement for small brewers to succeed, nationally, is to be able to retail their products that they produce at the brewery. In Montana there are limits to this retail ability in that breweries can serve only 3 pints per person per day, and can serve only between the hours of 10am to 8pm.

Let me review what SB202 would do:

- It shifts, but does not increase, tap room operating hours. Brewers are not interested in selling their beer in morning hours, and shifting the legal hours provides for a more appropriate schedule for their patrons.
- It meets the expectations of Montanans and the visiting public and tourists. The 8pm cutoff time is the single most sought after change by our patrons.
 - Shifting the hours will accommodate the worker's whose schedule runs past 7 or 8 in the evening.
 - Tourists and the visiting public are extremely confused and disappointed to learn that they can't visit a Montana brewery when they come from the river or the mountains in the evening. This is particularly true in the summer months when our daylight hours run past 10pm. Travel Montana did a survey and 54% of respondents said that visiting a brewery is something they might do when in Montana, and 17% said that visiting a brewery is one of the activities they were planning to do in Montana.
 - We have easily collected almost 4,000 signatures on petitions to support SB202. We did not hire staff or set foot on a university campus or solicit in front of a grocery store to collect more signatures, but are certain that we could have collected many more.
 - Three independent polls, one by the Bozeman Daily Chronicle, one by the Flathead Beacon, one by the Helena Independent Record, produced favorable ratings for SB202 of 80%, 82% and 87% respectively. We think this over 80% rating prevails statewide with Montanans.
- It creates jobs and supports small businesses. SB202 would create new serving jobs and increase payroll at breweries for serving shifts, and for new production staff requirements at Montana breweries.
- It enables reinvest in brewing capacity at Montana breweries and assists in the recovery of existing investments. Again, Montana brewers have on average over \$500,000 in brewery plant investments alone.
- It aligns with regional and national laws, many of which have no hour's restrictions. Idaho, Wyoming, North Dakota, Colorado, Oregon and Washington allow for serving past midnight, many of them until 2am. Most states have no specific limits set for breweries beyond other retail

establishments, and I am unaware of any that require serving to cease at 8pm.

- It brings breweries closer to Montana winery laws, which have no serving hours, or other restrictions. As a manufacturer, brewers should probably be treated the same. SB202, however, only asks to shift hours to meet customers' needs and help the industry as I've outlined.

SB202 DOES NOT:

- Increase, but rather shifts, the amount of legal tap room operating hours
- Increase the current 48 ounce limit that can be served per day, per person
- Allow the serving of beers not produced by the brewery
- Immediately increase the number of craft beer enthusiasts in the state, but rather provides for a more appropriate schedule for citizens and visitors to enjoy a craft beer at a Montana brewery

We recognize that breweries need to be treated differently than other on premise retailers, and we are not asking for similar privileges. During the interim we worked with the Montana Taverns Association in hopes of developing a brewpub license that could be agreeable to both parties. We agreed to make substantial investments for a brewpub license that would recognize our circumstances and provide for greater retail abilities, yet were unable to reach agreement. We ready to work with you and our industry partners to have a capability that provides for a stronger brewing community in Montana and one that fits within the Montana licensing system.

In the meantime, we ask for your favorable consideration of SB202 for the reasons stated to help move the craft brewing industry forward in Montana.

Sounds
like a
great idea.
Hardly
anyone
would go
to the tap
room at
10 am.
Noon to
10 pm
sounds
much
more
appealing.

501 Thomas Cook	sombra@centric.net	12/1/2010 10:19 Missoula's brewers ma

ridiculous.
10pm is
still silly
for the
weekends
at least,
but it's
better
than 8:00.
Why take
hours off
the front
end too;
just add
the hours
for the
brewery
can
choose.
Don't
punish the
brewers
and our
state as a
whole.
Just come
